JavaScript:

- https://javascript.info/: A sequenced, integrated and detailed overview that also works well for looking up snippets;
- https://www.w3schools.com/js/: The classic tutorial with try-it-yourself examples;
- https://codepen.io/: A useful tool to test front-end code in general; and javascript in particular (instantaneous results for quick prototyping).

Graphics & Videos

- https://www.pexels.com/ Free images (no attribution required, free to use for any purpose (including commercial), free to modify.
- https://pixabay.com/ Free images, vectors and videos --- often no attribution required and free to modify.

Artificial Content (for Prototyping)

- Standard Lipsum: https://www.lipsum.com/
- Office Lipsum: http://officeipsum.com/index.php
- Hipster Lipsum: https://hipsum.co/
